STANFORD HEALTH CARE PARKING APP FOR 500P - PASTEUR STAFF GARAGE

500P - Pasteur Staff Garage uses the Stanford Health Care parking app to improve the parking experience for staff

The Stanford Medicine Parking app allows staff to purchase their daily parking permit ($12) for the 500P - Pasteur Staff Garage on their phone, then scan their app at the entry and exit to open the gates!

You may also notice a parking availability monitor at the 500P - Pasteur Staff Garage entrance!
This monitor shows which levels are full and which still have capacity, saving you time searching for a space!

Staff may park in any stall (otherwise stated or reserved specifically for them), with the exception to

- **Street Level: Emergency Department Patient spaces** (there are signs in front of each space)
- **Street Level: Emergent on-call staff spaces** (there are signs in front of each space)
- **GL1: Authorized Service Vehicle spaces** (there are signs in front of each space)

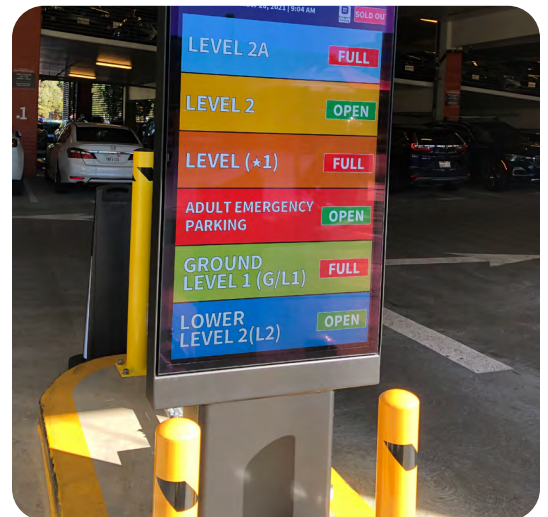

The gate arms can be opened with the app at 500P - Pasteur Staff Garage

Download the app!

VERSION 1/19/2024

Stanford Medicine Parking App

With the app, your purchase of a daily parking permit comes with a QR Code.

Scan the QR code when you arrive at the garage to open the gate.
When you're ready to leave, just scan it on your way out again. It's that easy!

Parking as easy as
1, 2, 3!

Step 1:
Pay for Parking in the App

Step 2:
Scan your QR code at the entrance

Step 3:
Scan your QR code at the exit
