If you haven't made a New Year's resolution yet, consider reducing your carbon footprint everyday!

Choosing a sustainable commuting option is a great way to make a positive impact on the environment. Rather than driving alone in a single-occupancy vehicle, consider a more sustainable option! As a bonus, you can also save on gas, toll, and parking costs!

There's many sustainable commuting options you can explore. A few examples are:

- Bicycle
- Ride Caltrain
- Take an East Bay commuter bus such as the [Marguerite Line AE-F](#)
