# VTA Light Rail Schedule Update

VTA light rail is operating more than ever before

Now's the time to make VTA light rail a part of your commute!

Great news, for those who have been using the VTA light rail as their daily commute and a great opportunity for those who are thinking about switching over to a sustainable commute.

As of October 31, 2022, VTA light rail frequency has increased: All VTA light rails (Blue, Green, and Orange Lines) will now arrive every 15 minutes during commute hours and mid-day (previously every 20 minutes).

Not sure where to start with VTA? Try taking the Green Line to the Santa Clara Park and Ride, or hop on the Orange Line to Mountain View Caltrain. Use your free VTA SmartPass for these routes - or even to head to downtown San Jose on the weekends! Eligible staff can use the **FREE** VTA SmartPass on their Stanford Medicine Clipper card **24/7**.
