A ChargePoint account is required to pay for parking and charging in these spaces. These charging spaces are available to the public. A valid parking permit is required, or hourly visitor parking rates must be paid in addition to EV charging rates. However, your electric vehicle must be plugged in to utilize these spaces. Vehicles that are not actively charging, do not have a valid parking permit, or have not paid the applicable hourly visitor parking rate will be subject to citation.

Electric Vehicle charging in Lucile Packard Children's Hospital Main Garage is for Patients and Visitors only.
